Brain Teasers

- 1) Two mothers and two daughters went out to eat. Everyone ate one burger, yet only three burgers were eaten in all. How is this possible?
- 2) You walk across a bridge and you see a boat full of people, yet there isn't a single person on board. How is that possible?
- 3) I am an odd number. Take away one letter and I become even. What number am I?

Each space is occupied by a die whose color corresponds to one of eight directions (up, down, left, right, and the four diagonal directions that lie between these.) Begin in the center space (the red two in this case) and each time you land on a die, move the number of spaces that is indicated by the die and in the direction that is indicated by its color. You should never jump off the board and you should land on every die, but only once.

The question is, which is the last die you land on?
